Seed Price List

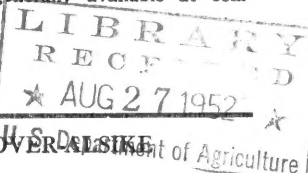

August 4, 1952

"SCOTTS" grade is the highest quality seed available. It is carefully selected and noxious weed free. Most lots will test 99.75% pure seed or higher.

MECHANICSBURG
OHIO

FARMER'S CHOICE: Choice, clean seed, low in weed content. Higher quality than is generally available at comparable prices.

Seed Treatment

For Treating Wheat, Oats & Barley
14 oz. Ceresan M\$1.25
3 lb. Ceresan M 3.55

SCOTTS FALL PASTURE

MIXTURE \$39.50 cwt.

Early fall is the ideal time to sow most pasture grasses. Scotts mixture for fall seeding is a blend of the most desirable grasses and legumes for permanent pastures. Contains Kentucky Bluegrass, Redtop, Perennial and Annual Ryegrass, Orchard Grass, Timothy, Meadow Fescue, Ladino and Alsike Clover.

Sow 20-25 pounds per acre for establishing a new pasture and about half that amount for reseeding an old pasture.

PASTURE GRASSES

Orchard Grass (Onion Free) \$.30 lb.
Red Top (Fancy)50 lb.
Ky. Bluegrass (Fancy)75 lb.
Ky. 31 Fescue (Cert.)50 lb.
Ky. 31 or Alta42 lb.
Meadow Fescue40 lb.
Reed Canary Grass50 lb.
Ryegrass (Annual)16 lb.
Ryegrass (Perennial)22 lb.

SCOTTS HEAVY-DUTY PASTURE

MIXTURE \$47.50 cwt.

Contains Ladino Clover, Alsike, Birdsfoot Trefoil, Kentucky Bluegrass, Ky. 31 Fescue, Meadow Fescue, Orchard Grass, Perennial Ryegrass and Redtop.

SCOTTS Heavy-Duty Mix is suggested where the field is to be left in pasture for at least five years and where heavy grazing is desired. Apply fertilizer, and lime where needed, and follow recommended seeding methods. Sow 25-30 lbs. per acre.

Scott's Treated Seed Grains

All Seed Wheat and Barley will be Ceresan treated without extra charge. This treatment is recommended by the U. S. Department of Agriculture and the State Experiment Stations for the control of certain smuts and many other seed borne and seedling diseases. Seed treatment usually improves stands, yields and quality of grain.

How To Order —Kindly include full remittance for prompt shipment. For later delivery a deposit of 25% should accompany the order, with the balance payable at time of shipment. Personal check, bank draft, money order or cash acceptable. Be sure to tell us if your freight station is different from your postoffice address. Parcel post shipment is more satisfactory on orders under 60 lbs. Please include postage.

FREIGHT PAID ON SHIPMENTS OF 200 LBS. OR MORE

Scott Farm Seed Company

Mechanicsburg, Ohio

SEEDS FOR FALL -- AUGUST, 1952

SEED GRAINS

WHEAT - Quality of seed is excellent this year and because of close prices and good supplies we are offering only Certified Seed.

Three varieties can be considered as new. Seneca was offered for the first time last year. It is a soft red winter wheat, red chaffed, stiff-strawed, high in test weight and a top producer. It is closely related to Thorne and well adapted to a wide area.

Pennoll is a new Pennsylvania variety, light chaffed, stiff-strawed, high test weight and a good producer. It has considerable resistance to stinking smut. Cornell 595 is a whitekerneled wheat widely grown in New York State and gradually being tried in Ohio and other states. Yields above those of the red varieties are reported. However, it needs to be kept separate from the red varieties as mixtures are penalized on the market.

Four of the older varieties are also offered. Thorne, the most widely grown, is smooth, red chaffed and stiff-strawed. Butler is bearded, stiff-strawed, high in test weight and less susceptible to scab and stinking smut than the smooth varieties. Vigo is noted for winter hardiness, high test weight and large heads and is best suited to western Ohio and Indiana. Trumbull is the oldest variety listed, is high in test weight, excellent quality and a good yielder.

RYE - Most customers are interested in rye for plow-under or for pasture. Common rye cannot be identified as either Rosen or Balbo but can still be used successfully for plow-under while the Balbo is suggested for pasture as it is more leafy and under most conditions better suited for early fall or spring pasture. Certified Balbo can be secured at a premium price if a customer is interested in producing seed.

BARLEY - Ohio No. 1 barley is bearded, high yielding and has proven more winter hardy and superior to others under Ohio conditions. It is essentially the same as Kentucky No. 1 and has performed equally well. Wong is considered as beardless and is stiffer strawed than other varieties. Barley is sown ten days to two weeks ahead of wheat so that it gets well started before cold weather. Winter oats are not as hardy as wheat, rye or barley and are not recommended except where weather conditions are mild.

GRASSES

Timothy and Brome grass, both of which are used extensively in fall seedings, are priced about the same as last Spring. Early reports indicate a smaller seed crop so prices may advance before the end of the fall seeding season. Bluegrass and Redtop are slightly higher but with larger supplies prices are lower on the Fescues and Ryegrasses.

Most seeds are ready for prompt shipment with freight paid on orders of 200 lbs. or more, and safe delivery guaranteed. Send in your order now.

Sincerely,

THE SCOTT FARM SEED CO.
